**PETITION UNDER 37 C.F.R. 1.181 TO  
WITHDRAW HOLDING OF ABANDONMENT  
BASED ON FAILURE TO RECEIVE NOTICE  
TO FILE CORRECTED APPLICATION PAPERS**

Sir:

Applicants respectfully request that the holding of abandonment of the instant application be withdrawn, and that the U.S. Patent and Trademark Office accept the enclosed Response to the Notice to File Corrected Application Papers and Replacement Sheets. In support of the request to withdraw the holding of abandonment, Applicants submit the following:

1. A Notice to File Corrected Application Papers was mailed on October 4, 2004 in the above-identified application. This Notice was returned by the U.S. Postal Service to the U.S. Patent and Trademark Office on October 27, 2004 as "undelivered," such that the Notice was not forwarded to the undersigned attorney of record, nor to the present the law firm of the undersigned, to allow Applicant the opportunity to respond.

**BEST AVAILABLE COPY**

2. Applicants failure to receive the above-noted Notice was discovered upon receipt of the Notice of Abandonment dated June 7, 2005, which was sent to the undersigned law firm by the U.S. Patent and Trademark Office.

3. A screen shot of the PAIR system is enclosed that identifies the mailing of the Notice on October 4, 2004, and the receipt of undelivered mail on October 27, 2004. Enclosed Image File Wrapper (IFW) copies of the envelope and its contents shows an envelope with no addressee identified, and a copy of the October 4, 2004 Notice addressed to Applicants' attorney of record.

4. While Applicants are not aware of whether the scanning of the envelope occurred before or after its contents were removed, the addressee name is not visible on the envelope shown in the IFW. Moreover, Applicants note that the address of the attorney of record is correct on the Notice. Thus, assuming that the letter was folded and inserted such that the addressee name was visible through the window, it is believed that the letter would have been deliverable by the U.S Postal Service. In any event, the Notice was not delivered to law firm identified on the Notice, but was instead returned to the United States Patent and Trademark Office as undeliverable.

5. From the IFW and other parts of the Patent Application Information Retrieval (PAIR) System, there is no indication whether any attempt was made to subsequently forward the Notice to Applicants' attorney of record and/or to contact Applicants' attorney of record to inform them of the requirement for corrected papers.

6. As it is apparent that delivery was not completed to the addressee, and there appears to have been no further effort made to forward this Notice to the addressee,

Applicants submit that this is sufficient evidence to warrant revival of the instant application.

7. Applicants also note that, as seen from the attached IFW, the Notice was addressed to McGuireWoods, LLP, the then law firm of the attorneys of record, listed below. The attorney of record, Andrew M. Calderon, is now of counsel to Greenblum & Bernstein. Andrew M. Calderon is very familiar with the docketing system of McGuireWoods. McGuireWoods has multiple redundant procedures for docketing operations (including docketing of PTO Office Actions). These docketing procedures include the docketing of both original due dates and final due dates. By way of specific example, these multiple docketing operations, which are cross referenced for accuracy and completeness, included:

- A. Date stamping of all incoming U.S. Patent Office communications including Decisions on Petition,
- B. Entry of U.S. Patent Office communications, including Decisions on Petition, for both reminder dates and final due dates, into a widely recognized commercial patent docketing system available from Computer Packages, Inc.,
- C. Docket reminders maintained by individual attorneys and their secretaries.

8. Attached hereto are docketing summaries for the time period of December 4, 2004 which would be the reply date for replying to the Notice. Also provided are McGuireWoods docket reports for the final due date of April 4, 2005. As seen, there are no entries for Serial No.: 10/711,200. All confidential information is redacted.

9. Applicants did not receive the Notice mailed October 4, 2004 in the above-identified application as evidenced by no entries for this communication made in the docketing system, while the docketing system is completely consistent in regard to other actions including other separate actions pending in other applications. Also, this is evidenced by the fact that the U.S. Patent and Trademark Office received this Notice as "undeliverable". As such, it appears that the abandonment was due to a mailing error on the part of the U.S. Patent and Trademark Office, or U.S. Postal Service.

10. Applicants believe that no fees are necessary for the submission of this request or for the acceptance of the enclosed papers and withdrawal of the holding of abandonment. However, should any fees be believed necessary, the undersigned authorizes the charging of any necessary fees to Deposit Account No. 09 - 0458.

11. Applicants believe that the Petition should be granted and the Notice of Abandonment, withdrawn, for the above reason.

12. In the alternative, Applicants petition that the application went abandoned unintentionally under the provisions of 37 C.F.R. §1.137(b). The entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition was unintentional. In this case, charge all necessary fees to Deposit Account No. 09 - 0458. The required reply to the Notice (e.g., corrected drawings) is attached hereto. Applicant submits that no terminal disclaimer is required.

Should there be any questions, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully submitted,  
Bruce B. DORIS et al.

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

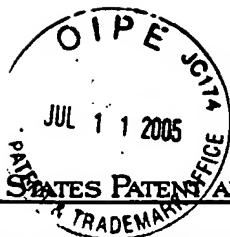

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
